Company activity

MPT Financial Advisors

The company was established as an Egyptian company specialized in financial

Consultancy. It has grown into a leading consulting firm specializing in financial

And credit consultancy, whether in the credit or capital markets, as well as

Corporate restructuring, in addition to insurance consultancy for all customers

Wishing to obtain the funding and consultancy necessary to establish or expand

Their projects to serve local markets as well as the Middle East region.

By focusing on supporting your project or your own work in multiple ways, where the size of your own business is small, medium or large, the MPT team simply

Determines your situation in a way that suits business size and financial

Capabilities, allowing you to grow sustainably.

MPT Financial Consulting was founded by a team of leading financial consultants who have extensive experience in emerging and global markets in the power of detecting numbers and the ease of solving any problem with it, in addition to the help required for all our customers to improve debt management for both small, medium and large companies in Egypt. We adapt to your own style while

Maintaining the integrity of your unique culture. Our services are optimized to

Provide all of our financial advisory services, and our services are designed to be easy and purposeful for our customers, supported by a comprehensive Infrastructure in accounting, law, global processes, marketing, investor relations,

And information technology.

Goal:

We aim to help companies and institutions (small, medium and large) solve

Financial problems and how to create better opportunities for them.

Experience:

Multi-faceted MPT offers solutions and services in financial consulting, financial

Analysis and using all tools to create multiple investment opportunities for your

Business success.

Our Customers:

Our business at MPT has been diversifying with private entrepreneurs like small and medium enterprises (SMEs) as well as companies and factories, working

Side by side since the company was founded to enhance their awareness of

The growth of the industry.

Corporate finance:

Facilitate companies' access to self-financing through the process of privatizing institutions and individuals, providing financial advisors to our clients, seeking

Investment opportunities and seeking and negotiating with potential investors.

Financial services:

Financial Services Management is the key to supporting any new or existing Company and is looking for financial advice to spend the resources available

Properly to manage the activity to design the financial policy for the Project, especially when the activity starts and when the liquidity available is

Not available. Here is an overview of some of our financial services.

a. Project feasibility studies and expansion plans for activities:

Through a team of specialists in financial and economic studies, an economic Feasibility study is prepared for new projects or for the study of expansion plans
For projects based on practical science and on the ground, in addition to studying investment opportunities and their economic feasibility, such as
The opportunity to acquire an existing project, whether it be the same activity,
A supplementary activity or a different activity, but there is a good investment
Opportunity
Opportunity to expand by attracting new partners
The opportunity to merge an activity with another to increase competitiveness
And to gain control over the market of a particular commodity.

b. Restructuring and rehabilitation of companies and upgrading their financial efficiency:

Some companies are hit by financial shocks due to market conditions or due to Miscalculations of market expectations by the management of the activity. One of the most important points we give attention is the provision of technical support
For the management of the customer's activity through

Study the sources of funding that it depends on
The study of a credit policy that the client in question grants to his clients
Study of strengths and weaknesses in credit policy
Propose solutions and alternatives to address liquidity problems

C. Assisting companies in obtaining loans of all types:

It is important for companies wanting finance to determine the most appropriate Funding alternative to a company before applying to any financial institution for Your application.
Therefore, we provide some guidance with respect to the terms and documents Normally required by each type of funding institution, which must be prepared Prior to applying for any funding entity
Make sure the activity needs funding
Select the type and size of the requested facility
Process customer credit file
Distinguish between best bank offers, best interest rates and commissions
Apply to the bank for the requested facilities
In the absence of good financial management, we follow up on the facility
And
Make sure it is disbursed as required on behalf of the customer

w. Settlement of corporate financial disputes with banks and loan scheduling:

In the event of financial shocks to the customer and the customer does not pay
For any reason, we are the ones studying the reasons for the default and
Proposing solutions to the customer. We settle the debts and schedule them after negotiating with the
creditor bank or the lenders in general on the size of the
Debt, the method of payment, and the dates

MPT was established for trade and supply since 2003

MBT Financial Consulting was built by a team of senior financial advisory

Professionals.

The two companies merged in 2022 to move forward to a better future.
